ENVIRONMENTAL STUDIES MAJOR PLAN OF STUDY

Name ____________________________________________________ Date

Class _______________________________________ Box _____________________________

Email Address ___________________________ Advisor Preference

This form should be submitted to the Environmental Studies office after consultation with the director and approval of the four-course sequence by department faculty. When submitted, an essay of 500 words, describing your intellectual commitment to environmental studies should be included. The essay should explain thematically, the objectives of your course of study, and the relationship of its various elements. Following acceptance of the plan, any changes must be brought to the attention of the director and may require approval of the steering committee.

Date(s) of consultation(s) with the Director of ENST: __________________________________________

2. A proposed sequence of three courses in one department (or a set of three courses with a common focus), no more than one at the 100-level. The department chosen may not be another multidisciplinary program (this applies to section 3 as well).

3. If you have chosen Biology, Chemistry, or Earth Science in #2, select three courses relevant to the major in a department outside the natural science division of the college. This sequence normally should include no more than one introductory course. Otherwise, propose three courses relevant to the major, at least one at the 200-level, from Biology, Chemistry, or Earth Science (ESCI odd # courses only).
Additional 200- and 300-level ENST courses are recommended but not required of the major. These courses, while not formally required for the ENST major, help shape your education in the framework of the liberal arts. We recommend up to four courses with at least one at the 300-level.

__________________________________________________________________________________________

Briefly describe how these courses fit into your interests in Environmental Studies.

__________________________________________________________________________________________

__________________________________________________________________________________________

__________________________________________________________________________________________

100-level ENST courses taken (these are recommended but not required for the major):

__________________________________________________________________________________________

List courses taken and proposed outside the major (e.g., ENGL 170, HIST 160, BIOL 270):

Fr. ____________________________________________________________________________________

So. ____________________________________________________________________________________

Jr. ____________________________________________________________________________________

Sr. ____________________________________________________________________________________

Please mark beside the course numbers, above, your freshman course (FC); courses taken to fulfill the quantitative (Q) and language (L) requirements; and any courses you plan to take during study abroad (JYA). If you have fulfilled your language requirement in a way other than Vassar course work, please indicate how you have done so.
